Press Release March 2016

Oliver Wight to host workshop on establishing an effective and agile supply chain

Leading business transformation consultants, Oliver Wight, are hosting an exclusive two-day workshop to help businesses establish an efficient and agile supply chain. Through strategic supply planning, Oliver Wight consultants will show how to balance ever-increasing customer demand with ever-limited resources. The event will take place on the 13 and 14 of April, in Munich.

Hosting the workshop, Oliver Wight consultant, Birgit Breitschuh, will demonstrate how Supply Planning can be effective and sustainable. The workshop will explain of how to take high-level business plans and successfully align supply points to deliver upon their commitments in the most efficient manner, by deploying the necessary processes, tools, behaviours, roles and responsibilities.

“Companies that optimize their supply chains, improve their perfect order rating by an average of 17%, at the same time as reducing their supply chain costs by 50%, and in today’s economy that’s an advantage worth taking.” says Breitschuh. “Developing a supply plan that is aligned with the supply chain strategy is an essential prerequisite and this workshop will give attendees the understanding required to operate this effectively”.

Attendees will be provided with the logical steps needed to fix broken supply chains, increase efficiency and sustainability, whilst equipping them with an understanding of the key supply chain concepts. Although collaboration and integration through the supply chain is paramount, the workshop reveals the importance of getting your own house in order first.

Cementing the key Supply Planning concepts, the workshop goes on to explain the fundamental role Supply Planning has in Supply Chain Management and Integrated Business Planning (IBP). “This workshop will excite delegates about the huge gains that can be made through the successful deployment of advanced Supply Planning concepts once they have mastered the basics” explains Breitschuh.

The workshop is ideal for Supply Planners, Supply Chain Planning Managers, Master Planners, Operations Managers, Lead Vendor Schedulers, Demand Controllers, Logistic Managers and Lead Replenishment Planners, looking to transform their supply chain, making it effective and agile in 2016.

The workshop costs €1,700. To register, please visit our [website](#) or contact Lisa Treusch on lisa.treusch@oliverwight-eame.com
